COLUMN

Robert Simpson's Feat of Running 120-Yard High Hurdle Race in 143-5 Seconds Most Startling Performance in History of Athletics.

Cupyright, 1916, by The Press Publishing Co. (The New York Evening World).

THE most startling athletic per-formance ever recorded is that of Robert Simpson of the University of Missouri. In the Missouri Valley Conference meet Simpson won the high hurdle race-120 yards-and was timed in 14 8-5 seconds.

This is so amazing a performance that all close followers of athletics wonder if the timing was correct. But it is very likely that Simpson did run in 14 8-5, for in the past two weeks be has twice been credited with running the hurdles in 14 4-6 seconds, breaking and then equalling his own world's record.

Simpson is said to have the most perfect hurdling form ever seen any-where. He is undoubtedly the world's greatest all-around short distance runner and jumper. In one recent meet he won five events, and his run-ning broad jump of over 24 feet is a pretty good indication of his ability to get up speed.

EACH CROSS intends to come out of his "permanent retirement" in a few weeks. Like all the rest of 'em, Leachie doesn't stay convinced. Young Saylor knocked him out. It was the first time Leachie had taken the long count-barring that collapse in the forty-first round

At least that is the rumor from Preddy's headquarters. Freddy has Capt. FRED MURRAY of Stan-Preddy's headquarters. Freddy has outsped White a couple of times, and thinks he could beat the soporific wallop again, even in twenty rounds. It's quite a different matter with Leonard. Weish found himself slow as a truck horse compared to the new lightweight challenger, and he wen't consider an offer of any kind for a long bout to a decision with the youngster who whipped him so easily in 15 seconds too.

Cornell looks like an unbeatable champion. Jack Moakley certainly has a knack of turning out great

His speed and his eye for distance try for its men. he seems strong as ever.

taking a chance if he fights White leges, Stanford University and the twenty rounds and must be given University of California, ranked third credit for accepting a risk at last, and fourth, beaten only by Cornell White may not be fast enough to hit and Yale. White may not be fast enough to hit welsh on the right spot, but if he does happen to drop the "kick" over—goodby championship for Mr. Welsh. White is without doubt one of the hardest hitting lightweights that ever fought with gloves. He sacrifices some speed for the purpose of setting himself for his punches, but he is so cool, deliberate and accurate that he is likely to catch Freddy foundering some time during twenty rounds. And if he does—good night Freddy!

Always providing, of course, that "No-decision Freddy" doesn't determine at the last moment to "defend" his title as usual, only in short, decisionless bouts that bring in the gate money with the slightest risk possible.

A S predicted in this column, Saturday saw some astonishing breaking of cinder path records. In the intercollegiate championships at Cambridge Ted Meredith proved himself the greatest middle distance runner the world has ever known when he broke Maxey Long's ancient record of 474-5 seconds for a quarter-mile around a turn. Hundreds of quarter-milers have been trying to reach that record for many years, and not one has ever succeeded. Meredith won his quarter-mile race in 472-5 seconds, clipping two-fifths of a second from the old mark. This
